

Distribution: SDSAWG Interested Parties List
From: Donald G. Firesmith, Chairperson SDSAWG
Subject: Partial draft SDSAWG Charter
Date: 12/2/85

Dear Colleague,

The SIGAda Software Development Standards - Ada Working Group (SDSAWG) is currently soliciting membership and needs your help. The attached partial draft SDSAWG Charter outlines our objectives (see paragraph 1.1) and the requirements for membership (see section 2).

If you wish to join, please notify me in writing as per the charter. The Vice-Chairperson and Secretary positions are currently open for nomination, and if possible, I shall fill these positions within the next month or two.

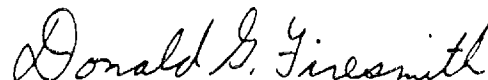

Any comments concerning the material currently in the charter or drafts of current TBDs will be greatly appreciated.

Our next scheduled meeting shall be during the February, 1986 SIGAda conference in Los Angeles. I intend to present the completed SDSAWG Charter for approval at that time. Due to the advanced schedule of DOD-STD-2167 Rev. A, I decided that this draft, though preliminary and incomplete, would be sufficient for the purposes of this memo.

Due to the great interest in this working group, our interested parties list will soon be restricted to various governmental and industrial organizations. Therefore, the best way to keep current with the workings of this important group will be to join.

If you have any questions or comments, please feel free to contact me at the following address.

Thank you.
